EXPERIENCE

FREELANCE WEB DEVELOPER

2021 | 1806, Melbourne

Ongoing work as a key contributor to rebuilding top Melbourne bar's website. I'm in constant contact with the client to ensure excellent service and all of their needs are met. Website views and activity are up 40% on last month.

PROJECTS

Cocktail Mate

Website made with Thymeleaf and Bootstrap connected to MySQL database. Functionality built with Spring Boot, full Rest API and JSON data available. Fully deployed on AWS: www.cocktailmate.net

Customer Tracker

App built with Spring Boot, Thymeleaf and MySQL that gives the user full CRUD functionality over a customer database. Will be updated with Spring Security to add specific user roles and customisation.

Tide Calculator

Simple app that retrieves data from 3 different Rest APIs. Takes in a global location from the user and displays the tide height at the nearest Tide Station within 100km.

Crypto-Commerce

Simple Bootstrap e-commerce website where users can buy goods using Cryptocurrency. Uses Smart Contracts written in Solidity and ran on a local Blockchain using Truffle Ganache.
